

Effective from
1 July 2015

Energy Label for LAMPS

What types of lamps will be covered?

**Incandescent
lamps**
(25 -200W)

**Compact
fluorescent lamps**
(≤60W)

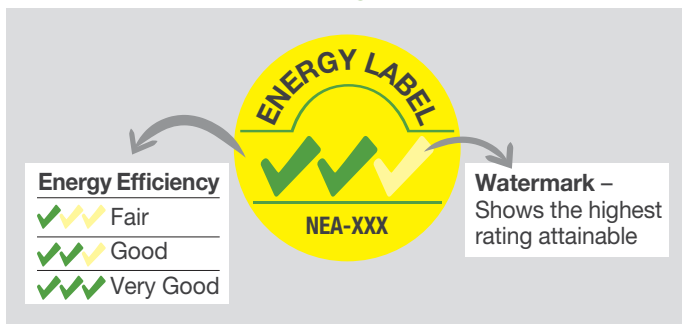

LED lamps
(≤60W)

Only non-directional lamps with integrated ballasts and those with Edison-screw or bayonet caps are covered.

Special purpose lamps are excluded.

Understand the Energy Label on the lamps

Lamps imported before 1 July 2015 are exempted from energy labelling and energy performance requirements up till 30 June 2016. From 1 July 2016, all registrable lamps must comply fully with the requirements. More details can be found at <http://www.nea.gov.sg/els>
